# WAV<sup>™</sup> CELLO

## S E R I E S

For the cellist venturing into the world of the electric, this instrument offers the combination of design, performance and affordability exceeding any other instrument in its class. Compact and light, the WAVc cello is a pleasure to travel with, but in terms of features and performance, this instrument is no lightweight. True to the NS tradition, the WAVc captures the essence of an acoustic, yet opens up an exciting range of new possibilities. It's a pleasure to play!

**WAV4c - 4 string (CGDA)**

**WAV5c - 5 string (FCGDA)**

## FEATURES

**Maple Neck and Body** For rich tone, strength and visual grace.

**Fingerboard** Asymmetrical relief for easy playability, even in the highest positions. Intonation referenced with cascading dot markers. Features the new **Coform<sup>™</sup>** technology which employs the engineered pairing of maple and high-tech acrylic. With an ebony-like appearance, it provides outstanding feel and performance while helping preserve traditionally used hardwoods.

**NS Polar<sup>™</sup> Pickup System** The great natural sound of our piezo-based passive pickup system. Volume and Tone controls; Pizzicato / Arco select switch.

**Adjustable Truss Rod and Bridge** Tweak the neck curvature and string heights to suit your music and playing style.

**NS Support System Options** Includes cello tripod stand. Compatible with the optional NS Cello End Pin and CR Tripod Stand, Boomerang<sup>™</sup>, or Frame Strap System.

### **Compact and Light Weight**

WAV4c - 4.5 lbs; WAV5c - 4.7 lbs. 37" long. Length: 37". Width: 5.5".

### **Padded Gig Bag**

For the instrument, stand and accessories. Goes anywhere, any time.

# WAV<sup>™</sup> OMNI BASS

## S E R I E S

The NS WAVc Omni Bass combines the feel and tonal character of an electric upright bass with the ease and familiarity of the 34" scale, bridging the divide between an EUB and a bass guitar. This innovative and exhilarating instrument is one of the clearest examples of the raw conceptual energy which Ned Steinberger brings to his work. The WAVc offers the combination of design, performance and affordability exceeding any other instrument in its class and true to the NS tradition, the WAVc captures the essence of an acoustic, yet opens up an exciting range of new possibilities. It's a pleasure to play!

### WAV4c - 4 string (EADG)

### WAV5c - 5 string (BEADG)

Tuned in fourths, the fingering positions and spacing are identical to the bass guitar, and therefore immediately familiar to any bass player. The Omni Bass can also be tuned in fifths, CGDA (low to high) for 4 string, CGDAE for 5 string.

### FEATURES

**Maple Neck and Body** For rich tone, strength and visual grace.

**TransRadius<sup>™</sup> Fingerboard** Asymmetrical relief for easy playability, even in the highest positions. The fingerboard radius at the nut is 9-1/4 inches for more familiar feel for the bass guitarist. For ease of bowing, the radius at the bridge end of the fingerboard is tighter, 2 inches. Features the new **Coform<sup>™</sup>** technology which employs the engineered pairing of maple and high-tech acrylic. With an ebony-like appearance, it provides outstanding feel and performance while helping preserve traditionally used hardwoods.

**NS Polar<sup>™</sup> Pickup System** The great natural sound of our Polar directional piezo passive pickup system responds selectively to either vertical vibration (for the sustained plucked sound, like an electric bass guitar), or lateral vibration (for dynamic bowing, and a percussive plucked sound). Battery-free operation. Volume and Tone controls; Pizzicato / Arco select switch.

**Adjustable Bridge and Two-Way Truss Rod** Tweak the neck curvature and string heights to suit your music and playing style.

**Boomerang<sup>™</sup> Strap System** This standard support system has a pivoting friction hub that holds the instrument firmly in place close to the body. Attached with a guitar style strap to its two support arms, the system allows the instrument to be moved into virtually any position in relation to the hands and body as it is played. Weight is .45 kg (1 lbs.).

**NS Support System Options** Includes Boomerang Strap System. Compatible with optional CR Tripod Stand or NXT Tripod Stand, Bass End Pin Stand or Frame Strap System.

### Compact and Light Weight

WAV4c - 7 lbs; WAV5c - 7.2 lbs.  
Length: 44". Width: 5.4".

### Padded Gig Bag

For the instrument and accessories.  
Goes anywhere, any time.
